Schuytten Haven. August 25.—Dr. Wilfront, the Almshonse physician at this place, received a box last evening by express, believed to be from Port Carbon. The appearance of the package somewhat surprised the doctor, who, after a moment's hesitation, opened it and was horrified to find that it contained the dead body of a newly-born, healthy made child. An examination was made by Dr. Wilfront before he summoned the Departy Coroner, who empanelled a jury. The doctor said that a week or ten days ago a young girl giving her name as Mary Brennan, of Frackville, called at his office and asked if she could not come to the Almshonse one day, be confined and return to her home the next day. She was told that this could not be done. Her object was to conceal, if possible, her condition from her mother and brother. Dr. Wilfront subsequently received a letter from her sister, in which she made an appeal to him that she might come to that institution and return the next day, thus avoiding exposure. A further examination of the box showed that it contained a letter the contents of which confirmed the sus-

Mr. Tucker says he found twenty-one patients—nine females and twelve males—in the most filthy condition imaginable. Some were in iron cages outside the main building, while others were in irons, bound hand and foot. Of these patients two were perfectly sane, and have no idea why they are confined. One of these sane persons is a man named Sherman, who has been confined for ten years. He was robbed of his wife by a Mormon polygamist and has been confined in this place ever since. THE CAMP MEETING Services Yesterday—Almost an Accident Readable Notes,

Moundsville, August 25 .- I closed my eport last night with the battle still raging nd it was after 10 o'clock before the noise and din of the conflict ceased. After thes had passed away an effort was made to count the number that were slain, but it seems to be impossible, as the altar was rowded and it was not possible to distinguish saint from sinner. All sang together the song of Zion, and all kneeled during prayer. Elder Ryan took occasion to remark that if anyone cried failure, in regard to the meeting, do not now cry excite-

questions relating to the final solution of the Egyptian question to the decision of all the European governments through their Ambassadors in a conference to be assembled at Constautinople.

Lord Dufferin was considerably taken back at the positive way in which the Turkish and Russian suggestions were made, and at the apparently concerted time which they were submitted to him, and it is understood that he notified the Home office that Russia and Turkey had reached a mutual understanding detrimental to the present interests of England and Egypt.

The cottage meetings are getting to be very popular, and the tents are crowded nightly. The young people's meeting at 0 k M, was attended by an immense audience, and owing to the dampness of the ground at the main stand it was thought wise to protract this meeting, and accordingly the meeting continued without any interruption. Every seat was occupied, and for a space of ten feet or more outside the tent were reated people, deeply inter-The orders not to allow the disembarkation in Egypt of Turkish troops without the previous signature of the military concepting and the issue of a proclamation against Arabi Pasha remain unchanged. STATE OF TRADE.

THE WEEKLY BUSINESS REVIEW

VOLUME XXX1.--NUMBER 3.

Full and Exhaustive Reports from the Promi nent Commercial and Trade Centres of the Country, Showing the Concillon of Business and Future Prospects.

New York, August 25 .- There is a well

marked improvement in general business. The movement of grain is larger, strikes are coming to an end and the news from Europe has had the effect of sustaining prices on all staples. While the grain market has been very irregular and unsettled with frequent and rapid fluctuations the range has not been a wide one. Cash corn has been in fair request at good prices, but in options there is so much uncertainty at present recarding the coming crop that there was but little speculative disposition shown. Oats have been most active of all grains. In pork and provisions the market has been dull and prices steady, with fluctuations within the range of five points, and showing at the close more strength. In wool there is a fair amount of business doing. Prices were well sustained. Stocks are not accumulating much and there is no disposition on the part of holders to shade prices for the trade unless the amount is quite considerable. The iron trade is in a more hopeful condition, though prices have not materially altered. There is some talk of an advance in bar iron next month. It is thought the strikes will soon be over, which will remove a dangerous and disturbing factor.

will remove a dangerous and disturbing factor.

The business failures throughout the country reported to New York for the past seven days number 107, being a slight increase over last week. Eastern States, 15; Western, 38; Southern, 20; Middle, 18; Pacific States and Territories, 11, and New York city, 5. The only assignments of any consequence in New York city are W. & J. Struss, shoes, and Billings & Co., pianos.

CHICAGO, ILL, August 25 .- Financially the week has not been an exciting one. The clearings, estimating Saturday, amount to \$40,000,000. The general business of the city is good, though no boom is evident. The mercantile trade averages fairly active. On 'Change there were no remarkable changes during the week, but a gradual ble changes during the week, but a gradual hardening of the principal articles dealt in. Everything seems to hang expectant on the weather. So far little is left to be desired, or in any section of the northwest. To-day regular wheat, under the influence of firm cables, opened strong for August, and soon weakened, but other options were firm, and at the close an advance of jaje on all futures except August was decided. Corn was generally firmer, active, steady and advanced.

CINCINNATI, O., August 25.-Farmers were becoming alarmed throughout the

southern part of Ohio and in northern Kentucky by the dry weather, which, if continued, would greatly diminish the corn crop, but on Wednesday of this week showers began to fall, which give new hope and which not only benefit corn but also aid in re-plowing for wheat. The dry weather has had but little apparent influence on the market price of grain. Wheat continues in good demand and firm at previous prices. Corn has not varied materially. Oats have fallen to 421a431c, while rye remains at 75c. In provisions the feeling is stronger, with higher prices. Pork has reached 23c. Lard 125c, and clear rii' bulk meats. 15j. Louisville, Ky., August 25 .- During the the week flour has been quiet at prices of last Friday, and the supply is ample for the consumptive demand. Wheat receipts are consumptive demand. Wheat the quality, light and much of it is inferior in quality. light and much of it is inferior in quality. To-day the markets closed weak. Grain business in this city is much duller this year than ever before. This is the result of good harvest in the South, and ti's thought that many of our former customers will produce enough grain to supply their wants. In provisions the tendency during the week has been toward higher prices, the yellow fever scare having entirely subsided, which had the effect of depressing the market for the past few weeks.

Pittsuuegii, Pa., August 25.-The past situation of general business. All branche of trade are excessively dull and no imof trade are excessively dull and no improvement can be hoped for while the stike continues. Fig and manufactured iron are dull and unchanged; the demand is light and the few sales that are made are for small lots. The glass trade is quiet. Unless the mixers and teasers strike two factories will resume on September 1st and a fair trade will likely follow. Petroleum was quiet the early part of the week, and active and irregular the past two days.

KANSAS CITY, Mo., August 25 .- The catchas-you-can wrestling match to-night be-tween Tom Cannon, of England, and Clarence Whistler, of this city, for \$250 a side, ence Whistler, of this city, for \$250 a side, was won by the latter. Cannon won the first fall in eight minutes, Whistler the secend in four minutes and the third in five minutes. Both were in good form and the match was harmonious throughout. The betting was two to one on Whistler. This afternoon Whistler sent a telegram to Richard Fox, of the Police Gazette, offering to wreatle Joe Acton, the Gravo-Roman wreatler, for from \$1,090 to \$5,000, at Cincinnati, Chicago, Kansas City, but had received no reply up to 10 o'clock to-night.
